| VALUE ADD OPERATING STRATEGY

Used extensive renovations as well as strong reputation in the brokerage community to reintroduce the Property to the marketplace and create strong leasing momentum which raised occupancy by 19% in the first eighteen months of ownership

Marketed the Property at very aggressive lease terms and still achieved excellent returns due to the compelling cost basis and committed leasing capital

Invested \$320,000 during the first year of ownership in common area renovations to increase the aesthetic appeal of the building

Worked with hotel developer to develop a site plan for a limited service hotel on a ±2-acre portion of the site to justify the potential land value prior to sale

| OPPORTUNISTIC SALE

Sold for nearly \$124/sf, which equates to approximately a 7% cap rate, after achieving 85% occupancy

Maximized sale price by executing a user sale to the largest tenant, a privately held company, who occupied 19,500 SF (15.7% of the building)
